**WHOLESALE
GROCERS**

EDMONTON, ALTA.
JULY 25th, 1921

MARKET INFORMATION

JULY 25th, 1921

- SUGAR.....** Raw markets have recently advanced. Tone appears to be steady at present Canadian Refined has now worked to levels which it is thought will be maintained. The demand is active.
- BEANS.....** Market slightly higher and firm at ruling quotations. Not much change in the market looked for.
- CANNED FRUIT.....** Advices from Ontario reflect a serious condition of the early fruit due to crop drought. It seems probable that with the short pack contemplated by Cannors there will be a shortage during the first part of next year. Meantime, it is unquestionable that prices on present stocks are low in face of these conditions.
- CANNED
VEGETABLES.....** Market firmer. Few low priced canned goods now to be had at first hands. Holders asking more money for stocks on hand. Present jobbing prices on Canned Vegetables look attractive.
- CHEESE.....** Market firmer and higher. Good export demand reported at present level of values.
- COFFEE.....** There is a very strong upward movement in Brazil Coffees. Both Rios and Santos are affected. New crop Santos is now coming forward and growers are demanding, and getting, a higher price for their product than old crop is selling at in New York. It is anticipated that the New York market will have to follow Santos prices.
- DRIED FRUITS.....** Raisins—Market continues weak in anticipation of new prices on this year's crop. The association, which practically controls the raisin crop, has not as yet named prices on 1921 crop.
- Peaches— Market practically unchanged. Prices have been named for the new crop which are about in line with ruling prices on last season's goods.
- Apples—Markets firm and unchanged at recent advances Available stocks are within narrow bounds, 3lb. cartons being unobtainable.
- PAPER.....** Market easier and with a downward tendency. Lower prices are looked for.
- RICE.....** Market higher, some mills quoting ten dollars per ton over recent quotations. It is claimed that Oriental Rice of good quality is now difficult to obtain.
- SALMON.....** Market very unsettled. Larger packers on the Coast have not named prices on new pack Sockeyes. Probabilities are no Pinks or Chums will be packed this year.
- TEA.....** Ceylons somewhat easier but the quality offered, as always at this time of the year, is of poor quality, and below standard. The suggested arrangement among growers, to pick 20% less, has fallen through, but all planters are agreed upon picking lightly.

TO THE TRADE—

Please show this Price List the same consideration that you would show the representative of any House calling on you. In other words, give it a hearing.

QUOTATIONS are all f.o.b. cars Edmonton, unless otherwise stated, and are subject to change. This business is on a mail order basis, and, due to the very low-selling expense, merchants will find quotations always most attractive. All cash or special trade discounts are deducted and quotations are net excepting in certain instances when a special discount is shown at the side of the article listed. When shipments are delivered to the railroad company, our responsibility ceases, but we are always glad, whenever there is need, to help in proving claims. Dealers should have any shortage noted on the expense bill by the local freight agent, but, should a clear receipt be given and damage afterward be found, the freight agent can make a "concealed damage report." Special quantity prices quoted on request.

TERMS of credit for 30 days may be arranged. Purchases solicited either on a cash or credit basis.

SERVICE that satisfies is what you want. Our staff of experienced grocymen are specially trained in the mail order way. Satisfaction is sure. Shipments are made by first freight. We guarantee quick delivery. This permits the dealer to order often and so carry smaller stocks.

PRODUCE AND COLD STORAGE—Ship your Butter and Eggs to us. We always pay the highest market prices. Credit notes are issued promptly. FURS, HIDES, POTATOES, WOOL and SENEGA ROOT sold to the best advantage for you.

A STRICTLY WHOLESALE GROCERY BUSINESS is conducted by this company; we do not supply groceries to consumers.

SEND US YOUR ORDERS BY MAIL, but whenever in a hurry, wire or phone at our expense.

EDMONTON, JULY 25th, 1921,

No. 7

Re-PLUG TOBACCO

The Inland Revenue Department has revived the regulations regarding the sale of Plug Tobacco in less than Caddy Lots, and insist that EVERY PLUG OF TOBACCO SHALL BE SOLD FROM A BOX BEARING THE NUMBER OF THE REVENUE STAMP SHOWING THAT THE DUTY HAS BEEN PAID. Every Storekeeper violating this provision is liable to a fine.

We are sure our Customers will co-operate with us to avoid needless expense for the small boxes necessary to repack less than Caddy Lots. We would ask all to kindly avoid, wherever possible, ordering less than straight Caddies of Tobacco.

Crops Looking Good

In most places in this territory the crops are looking fine, and although we are unable to say what the price of grain will be this fall, from present indications it should be fairly satisfactory, and farmers should therefore be in better shape by the time they have got in their harvest than they were last year.

Although we don't want to appear pessimistic, we must remind you that the crop is never assured until it is threshed. Many things may happen during the next six weeks to cause certain farmers disappointment. They nearly all run up fair-sized store bills during threshing time, and although you should be safe in helping out those whom you know well and who are in the habit of paying you promptly, don't be too liberal with the man whose account is already high and long overdue.

Personal Attention

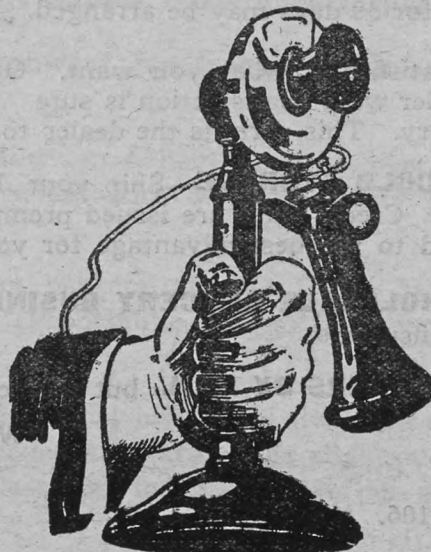

Your order sent to us receives the personal attention of the experienced grocerymen in this house, including our Manager. Nothing is overlooked that makes for the best possible service to the customer. Try us and see.

Phone Your Rush

Orders to

(Our Country Sales Department)

Then if you want any particular Salesman, ask for him by name and if he is in the house he will be put on the line.

This price list shows many price changes. Read it carefully

Window Cards and Price Tags

Nowadays, when competition in the retail business is so very keen, it behooves every enterprising merchant to take advantage of every little thing which will help sell his goods. It behooves him to try and get a double punch into his price tags and window cards, because the more sales force there is in his windows, the more goods he is certain to sell. Window cards and price tags are a part of the essential equipment required for the dressing of ninety per cent of the average window displays. It is only rarely that a display is so extraordinary or forceful that no price tag nor window cards are needed to complete it.

In addition to this original punch which all price tags and the majority of window cards have, they can be given an additional sales punch which will make them doubly valuable to the store which uses them. This double sales punch will also be calculated to make the displays more interesting and decidedly different from the ordinary run of displays. Instead of using merely nondescript tags and cards, link them up with the display, using bits of cardboard cut out to resemble some of the lines you are showing. For the cards, too, use larger cardboard cut in the same designs as the tags.

Those Fall Credits

The splendid crop conditions prevailing in the West have done much to dispel the uncertainty of the future, and pessimism has generally given way to quiet optimism.

However, we must not let our optimism outrun our good sense in considering applications for Fall credit, which, even now, are beginning to come in.

This is not a year in which any thinking merchant can extend credit carelessly even if we have a bumper crop. With world conditions as they are, we may have the largest crop in our history and yet get very little for it in actual dollars.

The year 1920 has proven beyond a shadow of a doubt, that the credit system followed in Western Canada is wrong. It would be sheer business suicide to ignore the signs of the times.

We must keep our hands firmly on the wheel until the troubled waters are definitely passed. We must approach the matter of Fall credits with the utmost care and caution. When the time is ripe, and only then, select your risks carefully and let the bank take care of those that have any element of risk. Let's be sane this year.

Better Service

Prompt deliveries boost business. The wholesale house with the reputation for getting those last-minute orders out on time is the house whose business is going to show the most rapid growth.

Quick delivery is a feature of WESTERN GROCERS LIMITED service.

The Retailer Who is Getting the Business To-day is the Retailer Who Has the Goods

The real trade builders to-day are staple lines, well priced. We are not building sales on luxuries. The old staple sellers are coming back strong. New trade is being created every day. The merchant who seizes such opportunities as featured in this Price List will secure profitable and increasing business. To-day more than ever before, goods well bought are half sold. On receipt of this catalogue, read it over thoroughly. On the colored pages you will find a great many specials well worth your immediate attention.

Camping Season

At this time when picnic parties and summer vacation outings are business opportunities, what special preparation can you make to derive some benefit? We would suggest the display of seasonable summer lines such as Canned Salmon, Sardines, Pickles, Olives, Olive Butter, Peanut Butter, Jams, Canned Fruits, etc.

Many stores put on special deals covering 5 tins of Jam, 10 tins of Canned Fruits, etc. Now is the time to move out some of those slow sellers carried over from last summer. You will find there is plenty of business when the proper sales work is applied.

"Old City" Strawberry and Raspberry Jam in those 4-lb. net weight Glass Bottles, make a very big appeal. "Old City" has that rich taste of the wild fruit possessed by no other Jam. Make your customers acquainted with "Old City" Jam. Your picnic display is not complete without it.

We are always talking to the trade about keeping unceasingly after the staple lines, but we do not mean to suggest that seasonable and fancy groceries should be overlooked. Now is your best summer selling season—make the most of it.

**Overstocks are NEVER traceable to
MAIL ORDER BUYING**

"There ought to be a united effort in every community to keep every good man from being destroyed because he cannot immediately meet his obligations. Under existing conditions it would be the acme of inhumanity and unwisdom to force any debtor into bankruptcy if, by the most liberal indulgence, he would ultimately be able to pay. Failures do more than wreck business—they oftentimes destroy men."
(Quoted from statement issued by Community of Governors recently convened at Harrisburg, Pa.)

We appreciate your specialty orders. Have them shipped through us.

Let us Remind You that

DONALCO Tea makes the best iced Tea. Recommend it to your customers. Page 43.

* * * *

Canned Corn is selling fast. Excelsior Brand Choice Corn is a snap at the price quoted.

VOL. X

EDMONTON, JULY 25th, 1921

No. 7

All shortages or damage in shipments should be noted on Freight Expense Bills and certified by your Local Freight Agent.
ON NO ACCOUNT GIVE A CLEAR RECEIPT FOR GOODS UNTIL THIS IS DONE.

On shipments consigned to "flag stations" it is almost impossible to attach liability to the Railroad for damage or shortage unless consignee or someone on his behalf is present when goods are being unloaded from the train by the conductor

In case of damage or shortage not discovered until after clear receipt has been given, report to Freight Agent immediately and insist on having an inspection made and a "concealed damage" report recorded.

Excellent Pineapple

The Pineapple quoted below will suit the greater part of your trade and you will do well to lay in a stock at the reduced prices. Prices now quoted for this Fall's pack will be considerably higher than we will sell this Hawaiian Pineapple for.

This is standard quality Pineapple, in a medium syrup which is preferred by many to the heavy syrup, as it does not disguise the pure flavor of the Pineapple.

Offer these to your trade at 35c per tin or two for 65c, and you will find them very fast sellers.

Waikiki Grated Pineapple, 24-2..Per case \$6.20

Waikiki Broken Sliced Pineapple, 24-2
